

About DanceWorks

Founded in 1986, Danceworks is Syracuse University's largest student-run and audition-based dance organization. We have over 100 active members coming from a wide variety of dance backgrounds, styles, and levels; but we all share a passion for the art.

Our various levels of involvement make this organization ideal for any student. From attending workshops in the fall and spring to being a cast member in our spring showcase, the time commitment can be as little as one hour a week. Returning members can bring their ideas to life as choreographers for the spring showcase. Board positions provide endless leadership opportunities throughout the school year.

All members rehearse during the Fall and Spring semesters to prepare for our annual spring production, which is completely choreographed by students. Two evenings of performances show off our dancers' talents, along with the hard work and creativity of the student choreographers. Our show incorporates all styles of dance including, but not limited to; hip-hop, lyrical, jazz, ballet, tap, modern, and contemporary.
